## **Welcome to ConDor XVII**

Hello, and welcome to our convention! We hope you will have a most enjoyable time.

Our theme this year is "Tripping the Past Fantastic," with an emphasis on Steampunk. However, we will also have our usual range of literary and media programming, gaming, and of course our Hogwarts Educational retreat. We will have music, dancing, a masquerade, and just lots of fun in general.

However, what we've always valued the most about ConDor is the marvelous bunch of people you can meet. Yes, that's **you**, our attendees, who really make this convention what it is. So thank you one and all for being here and helping make all the effort that goes into putting the convention together more than worth it!

Here at *The Scavenger*, we will do our best to keep you up-to-date on any news, updates, and important information you might need to help you enjoy the con. So, let's all get out there and get to it!

## **More Hogwarts!**

We've added a session on Charms (Magical Artifacts), featuring Chris Weber and Karen Willson. Sunday at 3:30 in the Director's Room.
